**I want to thank the I.F. for this award, I think the I.F. is an institution that most flyers do not really know of all the good that they are doing. saying this I feel that there has to be a way to educate the members, by maybe sending flyers to club secretaries to post, so flyers can be educated as to what is going on in the organization and also how and when to apply for different awards, a lot of members do not read sky talk and also not all secretaries are helpful to get members to apply for these awards.**
